Scrum Alliance® Certified Agile Leadership (CAL) Program

Agile leadership is a broad topic, currently without a shared definition or understanding Organizational agility cannot exceed the level of personal leadership agility of those with the most influence in an organization Because Agile leadership involves ongoing personal development, it is not something

“The more successful Agile Leadership

Agile leaders need to understand that an Agile transformation is not something just for the developers and testers To achieve true organizational agility, the entire organization must be in alignment and understand the new approach and how it will affect their role, regard-less of whether they are in development, product
