The C++ Language Tutorial

The 5th part mostly describes the new features introduced by ANSI-C++ standard Structure of this tutorial The tutorial is divided in 6 parts and each part is divided on its turn into different sections covering a topic each one You can access any section directly from the section index available on the left side bar, or begin the tutorial

C++ Standard Template Library

L14: C++ STL CSE333, Summer 2018 STL Containers L vSTL containers store by value, not by reference \$When you insert an object, the container makes a copy \$If the container needs to rearrange objects, it makes copies •egif you sort a vector, it will make many, many copies •egif you insert into a map, that may trigger several copies \$What if you don't want this (disabled copy

Programming in Standard ML

nition of Standard ML (Revised) is the formal definition of the language It is supplemented by the Standard ML Basis Library, which defines a common basis of types that are shared by all implementations of the language Commentary on Standard ML discusses some of the decisions that went into the design of the first version of the language

A Handbook of Statistical Analyses Using R

The packages listed here implement standard statistical functionality, for ex-ample linear models, classical tests, a huge collection of high-level plotting functions or tools for survival analysis; many of these will be described and used in later chapters Packages not included in the base distribution can be in-stalled directly from the R

Introduction to the Custom Design Flow: Building a ...

EE241 Tutorial 3, Introduction to the Custom Design Flow, Spring 2013 7 Figure 7: Export variable to a CSV le be larger than NAND2X0 RVT However, the designers accomplished this by adding 2 extra inverter stages as a bu er The fanout between the 1st/2nd stage and the 2nd/3rd stage is less than 4, and therefore is not optimal

Mathematica Tutorial: Differential Equation Solving With ...

Introduction to Differential Equation Solving with DSolve The Mathematica function DSolve finds symbolic solutions to differential equations (The Mathe- matica function NDSolve, on the other hand, is a general numerical differential equation solver) DSolve can handle the following types of equations: † Ordinary Differential Equations (ODEs), in which there is a single independent variable

The C programming Language - Shell Account

Appendix A, the reference manual, is not the standard, but our attempt to convey the essentials of the standard in a smaller space It is meant for easy comprehension by programmers, but not as a definition for compiler writers -- that role properly belongs to the standard itself Appendix B is a summary of the facilities of the standard library

Detailed Syllabus for CSS 501 - University of Washington

Longman, 2012 Good introduction and useful reference for the C++11 standard library David Vandevorde, Nicolai M Josuttis, and Douglas Gregor,

C++ Templates: The Complete Guide, 2nd Edition, Addison-Wesley, 2017 Tutorial and reference, updated for C++17 Major Assignments We will have both written assignments and programming assignments

An Introduction to the C Programming Language and ...

reference, but more complete works are recommended In particular, for the practicing programmer, the best available tutorial and reference is Kernighan and Ritchie [KR88] and the best in-depth reference is Harbison and Steele [HS95, HS02] The influence of these two works on ...
